EDUCATION

University of Toronto | Toronto, ON **Expected June 2027**

- Bachelor of Information in Information Systems | GPA: 3.7/4.0
- Scholarships: University of Toronto Admission Scholarship ($1,000); CIE International Experience Award ($4,000)

WORK EXPERIENCE

Vale **May 2026 – Present**

Business Intelligence Analyst Co-op Student Toronto, ON

- Turned interviews with 6 Sales Managers into technical requirements for Microsoft Dynamics 365 CRM, triaging 10+ workflow issues and partnering with IT to cut redundant data entry and streamline sales processes.
- Building an AI agent on the department's SharePoint after centralizing 2,000+ documents into a hub for 200+ users.
- Automated 5 daily SAP and Excel processes with VBA, SAP scripting and Power Automate, cutting manual processing time by up to 60% for 4 teams and adding data-validation checks to reduce entry errors.
- Built 3 Power BI solutions for cost, budget, freight and purchasing, merging SAP and Excel data into one source of truth that leadership and 20+ users rely on for data-informed decisions.

Apple **May 2024 – January 2025**

Product Specialist Vancouver, BC

- Used sales KPIs and trends to refine selling, contributing $500K+ in quarterly revenue (top 10% of Specialists).
- Diagnosed customer needs and technical requirements to recommend tailored solutions, lifting conversion 20%.
- Resolved complex product and service issues across 30+ interactions per shift, building trusted client relationships.

TMA Solutions **May 2023 – August 2023**

UX/UI Design Intern Ho Chi Minh City, Vietnam

- Triaged 8 usability issues from 3 rounds of usability testing with 10+ users, then partnered with 5 engineers and stakeholders to implement design fixes that raised task completion by 25%.
- Turned research and requirements into To-Be flows and 15+ wireframes, cutting key booking flows from 9 to 6 steps.
- Ran 12 user interviews and built 3 journey maps, turning 10+ pain points into 6 prioritized design recommendations.

PROJECTS

Instacart Grocery Recommendations | Python, SQL | Case study | Code **October 2026**

- Built a "Buy it again" recommender in Python and SQL on 3.4M orders from 131K shoppers, from scope to prototype.
- Predicted 24% of each next basket, 5x a best-seller list, choosing a lean rule over ML models that added under 1%.

SkillSwap – Hobby Supply Swapping App | Figma, Claude, UX Research | Case study **January 2026 – April 2026**

- Surveyed 42 people and interviewed 7, then tested our marketplace app with 12 users, scoring 71.7/100 on usability.
- Redesigned the buying, offer and listing flows around tester problems, then built a working app with AI (Claude).

TStar – Student Friendship App | Figma, UX Research | Case study **October 2025 – December 2025**

- Surveyed 31 students and interviewed 11 to design an app that helps shy students make friends in their program.
- Tested 2 rounds with 6 students (all 3 final testers finished both tasks), then fixed the 5 issues they hit.
