EY Campus Recruitment
Toronto, Ontario

2027 Consulting - Canada - Full-Time Staff (1734991)
Technology Consulting - SAP and Oracle Platforms, Toronto

Dear EY Recruitment Team,

I am applying to the SAP and Oracle Platforms team in Toronto for September 2027. I am completing a Bachelor of Information in Information Systems at the University of Toronto, with graduation expected in June 2027. My work as a Business Intelligence Analyst co-op at Vale has shown me how enterprise systems, clear requirements and practical automation can improve daily operations. I want to build on that experience in SAP consulting.

At Vale, I automated five daily SAP and Excel processes using VBA, SAP scripting and Power Automate, reducing manual processing time by up to 60% for four teams. I also added data-validation checks to reduce entry errors. This work has taught me to understand the business task, identify repetitive steps and check the reliability of a solution before relying on it.

I also translated interviews with six Sales Managers into technical requirements for Microsoft Dynamics 365 CRM, triaging more than ten workflow issues and working with IT on improvements. I built three Power BI solutions that combine SAP and Excel data for cost, budget, freight and purchasing decisions. These experiences connect technical work to stakeholder needs and have strengthened my interest in consulting on enterprise platforms.

I would bring an analytical approach, experience communicating with business users, and a willingness to learn from implementation teams. I am particularly interested in EY's SAP and Oracle Platforms stream because it would let me develop deeper enterprise-system skills while helping clients improve their processes. Thank you for considering my application.

Sincerely,
Justin Dao

EDUCATION

University of Toronto | Toronto, ON **Expected June 2027**

- Bachelor of Information in Information Systems | GPA: 3.7/4.00
- Scholarships: University of Toronto Admission Scholarship ($1,000); CIE International Experience Award ($4,000)

WORK EXPERIENCE

Vale **May 2026 – May 2027**

Business Intelligence Analyst Co-op Student Toronto, ON

- Turned interviews with 6 Sales Managers into technical requirements for Microsoft Dynamics 365 CRM, triaging 10+ workflow issues and partnering with IT to cut redundant data entry and streamline sales processes.
- Building an AI agent on the department's SharePoint to help staff find information faster, after centralizing 2,000+ documents into a knowledge hub with standard metadata for 200+ users.
- Automated 5 daily SAP and Excel processes with VBA, SAP scripting and Power Automate, cutting manual processing time by up to 60% for 4 teams and adding data-validation checks to reduce entry errors.
- Built 3 Power BI solutions for cost, budget, freight and purchasing, merging SAP and Excel data into one source of truth that leadership and 20+ users rely on for data-informed decisions.

Apple **May 2024 – January 2025**

Product Specialist Vancouver, BC

- Used sales KPIs, customer trends and product performance data to find growth opportunities and refine selling strategies, contributing $500K+ in quarterly revenue and ranking in the top 10% of Specialists.
- Diagnosed customer needs and technical requirements to recommend tailored solutions, lifting conversion 20%.
- Resolved complex customer-facing product and service issues across 30+ interactions per shift, with follow-ups that built trusted client relationships and strengthened customer satisfaction.

TMA Solutions **May 2023 – August 2023**

UX/UI Design Intern Ho Chi Minh City, Vietnam

- Triaged 8 usability issues from 3 rounds of usability testing with 10+ users, then partnered with 5 engineers and stakeholders to implement design fixes that raised task completion by 25%.
- Translated research findings and business requirements into To-Be user flows and 15+ low-fidelity wireframes for search, comparison and booking, cutting key booking flows from 9 to 6 steps.
- Ran 12 user interviews and 3 journey maps, turning 10+ pain points into 6 prioritized recommendations.

PROJECTS

Instacart Grocery Recommendations | Python, SQL | Case study | Code **October 2026**

- Built a reorder prototype with 24% recall@5 using data from 131K+ Instacart shoppers.
- Compared 5 approaches and built a discovery recommendation prototype.

TStar – Student Friendship App | Figma, UX Research | Case study **October 2025 – December 2025**

- Designed a 31-response survey and analyzed 11 interviews to shape an app helping shy students make friends.
- Tested prototypes with 6 students (3 of 3 task success), then redesigned the app solo to fix 5 tester issues.

SKILLS

Product | Prioritization, Requirements, Stakeholder Interviews, User Research & Testing, Wireframing, Agile/Scrum
Technical | Python, SQL, JavaScript, HTML/CSS, GitHub, AI Coding Tools (Codex, Claude), Figma, LLM Agents
Analytics | Power BI, Power Query, Excel, VBA, SAP, Power Automate, Dynamics 365 CRM, SharePoint, Dashboards
