EDUCATION

University of Toronto | Toronto, ON **Expected June 2027**

- Bachelor of Information in Information Systems | GPA: 3.7/4.00
- Scholarships: University of Toronto Admission Scholarship ($1,000); CIE International Experience Award ($4,000)

WORK EXPERIENCE

Vale **May 2026 – May 2027**

Business Intelligence Analyst Co-op Student Toronto, ON

- Turned interviews with 6 Sales Managers into technical requirements for Microsoft Dynamics 365 CRM, triaging 10+ workflow issues and partnering with IT to cut redundant data entry and streamline sales processes.
- Building an AI agent on the department's SharePoint to help staff find information faster, after centralizing 2,000+ documents into a knowledge hub with standard metadata for 200+ users.
- Automated 5 daily SAP and Excel processes with VBA, SAP scripting and Power Automate, cutting manual processing time by up to 60% for 4 teams and adding data-validation checks to reduce entry errors.
- Built 3 Power BI solutions for cost, budget, freight and purchasing, merging SAP and Excel data into one source of truth that leadership and 20+ users rely on for data-informed decisions.

Apple **May 2024 – January 2025**

Product Specialist Vancouver, BC

- Used sales KPIs, customer trends and product performance data to find growth opportunities and refine selling strategies, contributing $500K+ in quarterly revenue and ranking in the top 10% of Specialists.
- Diagnosed customer needs and technical requirements to recommend tailored solutions, lifting conversion 20%.
- Resolved complex customer-facing product and service issues across 30+ interactions per shift, with follow-ups that built trusted client relationships and strengthened customer satisfaction.

TMA Solutions **May 2023 – August 2023**

UX/UI Design Intern Ho Chi Minh City, Vietnam

- Triaged 8 usability issues from 3 rounds of usability testing with 10+ users, then partnered with 5 engineers and stakeholders to implement design fixes that raised task completion by 25%.
- Translated research findings and business requirements into To-Be user flows and 15+ low-fidelity wireframes for search, comparison and booking, cutting key booking flows from 9 to 6 steps.
- Ran 12 user interviews and 3 journey maps, turning 10+ pain points into 6 prioritized recommendations.

PROJECTS

Instacart Grocery Recommendations | Python, SQL | Case study | Code **October 2026**

- Built a "Buy it again" feature predicting reorders at 24% recall@5, tested on 131K+ Instacart shoppers.
- Picked the simplest of 5 approaches, then shipped a "You might also like" row that beat best-sellers by 17%.

TStar – Student Friendship App | Figma, UX Research | Case study **October 2025 – December 2025**

- Designed a 31-response survey and analyzed 11 interviews to shape an app helping shy students make friends.
- Tested prototypes with 6 students (3 of 3 task success), then redesigned the app solo to fix 5 tester issues.
